

2.6.01.05.28446 TEMP_DH_IPC-HX5XXX-Volt_MultiLang_PN_Stream3_V2.800.103F001.0.D.201110.zip

Release note:

Based on: DH_IPC-HX5XXX-Volt_Eng_P_Stream3_V2.800.00AD000.0.R.200729

1. Mask Detection children 6 years old and younger would not detected.
2. One-key black screen is enabled by default.
3. The Face Detection-Mask Detection of Smart Plan is enabled by default.
4. Add attached German audio in Camera-audio-alarm audio to the package. (In this way, the user does not need to manually add)
5. Support German and English language.
6. The parameters under the Face Detection menu are set to the following values as default, refer the pictures below.

Note:

1. WDR can be enabled if needed. However, it will slightly affect the Mask Detection Algorithm accuracy.
2. The Mask Detection Sensor installation guide is following the Face Detection deployment requirement.
